Synthetic structural supplement

1.1 Merged headers and table notes

Operating envelope			Review result
Band	**Minimum**	**Maximum**	**Status**
Normal	0.2	0.8	Accept
Emergency	0.8	1.0	Review

Table 1 - Operating envelope

NOTE 1 - A boundary value requires manual review.

1.2 Display expression and equation number

$$Q / P = (a + b) / (1 + c) \qquad (A.1)$$

1.3 Nested alphabetical clauses

a) Verify the nominal input.

    1) Measure the first channel.

    2) Measure the second channel.

b) Retain the recorded values.

Annex A (informative)

NOTE - This is synthetic test content, released under the repository MIT license.

Numbers such as 108 are literal text; they are not inferred endnote calls.
